PLANNED OFFICE INTERIORS

“ 85%* of business owners believe clients make a judgment based on a business based on its office environment”

*Source: The impact of office design on business performance | 2005 | cobe.org.uk

Making a great first impression has significant benefits for every business. To present a good first impression, you must carefully design your space.

At Planned Office Interiors we have 40 years of experience and an extensive selection of traditional and modern workspace furniture.

Desks

An office desk is a home for many people, who will spend a great deal of time stationed there. The modern office desk needs to be practical, comfortable and must allow a person to work productively.

Seating

Our selections include executive, heavy duty, conference, soft seating and also lifestyle. In every case, our office chairs are built with ergonomics in mind and with designer good looks.

Soft furnishings

Breakout areas don't need to be boring, from colourful sofas to meeting pods, make a statement with a unique workspace or client waiting area.

Storage

Not having the right storage can lead to inefficiency, which is when problems can occur. Having a practical system for storing hard copies, files and documents creates a more efficient and professional workspace. Whether you're looking to update part of your workspace furniture or you're ready for a complete fitout project, Planned Office Interiors will get your workspace performing to allow you to focus on your business.
