PLANNED OFFICE INTERIORS

“ 80%* of our facilities management issues are fixed within 1 day”

*Source: POI clients Jan 17 to May 18.

At planned office interiors we've been passionate about delivering high quality customer service for 40 years, so that you can focus on what you do best, running your business.

By focusing on transparent pricing we've provided significant cost savings to our clients. And, over the past few years, we've established our facilities management service across 100s of sites nationwide.

Preventative maintenance for your commercial premises can be far more cost-effective than waiting for a problem to escalate. Often we can avert the need for costly repairs or even closures that could affect your business. Planned maintenance for commercial premises secures the smooth running of your business. Our annual reviews enable our clients to make informed decisions that keep them in control, reduce running costs and maximising downtime.

Reactive maintenance support from Planned Office Interiors is available to support your business when the unforeseen happens. We have experienced and accredited tradesmen of various categories on standby.

Some of our tradesmen include:

Electricians

Plumbers

Gas / central heating engineers

Joiners

Plasterers

Air conditioning engineers

100%

of issues responded to within an hour

PERCENTAGE OF ISSUES FIXED WITHIN ONE DAY

Looking for a common sense facilities management solution?
